WORK EXPERIENCE

Netcompany | 05/2025 - Present

- **Delivered end-to-end React features using Redux and React JSON Schema Form, improving form scalability and maintainability.**
- **Refactored core components for cleaner architecture, boosting performance and readability.**
- **Integrated REST APIs and optimized data flows for faster, more reliable UI interactions.**
- **Collaborated cross-functionally to align UX and technical delivery across agile sprints.**

Deloitte Digital | 05/2022 - 05/2025

- **Next.js-Powered Transformation**: Migrated the multi-market eCommerce site of a leading cruising company from a monolithic system to a custom React-based SPA using **Next.js**, enhancing performance and scalability.
- **Performance Optimization:** Reduced load times by up to 40%, lowered bounce rates by 25%, cut error rates by 30%, and boosted **SEO** and conversion performance by 20%.
- **Timely Delivery of Business Requirements:** Collaborated with cross-functional teams to ensure business needs were met promptly, delivering high-quality **frontend** solutions and pivoting based on real-time client feedback.
- **Responsive & Accessible UIs**: Engineered **clean**, **responsive**, and **accessible** user interfaces with React to ensure consistent cross-device experiences.
- **Seamless API Integration:** Working closely with backend developers to integrate **REST API**s for seamless frontend-backend communication.
- **Analytics:** Implemented analytics tools such as Google Analytics, Contentsquare, and AppCues to enhance user insights.
- **Unit Testing:** Conduct unit testing as part of an Agile team to ensure code quality and facilitate iterative development.
